

IN THE CLAIMS

Please amend the claims in accordance with the following rewritten claims in clean form. Applicant includes herewith an Attachment for Claim Amendments showing a marked up version of each amended claim.

1. (Amended) A method for transacting a purchase between a buyer and a seller using a computer-implemented purchasing system, the purchasing system having at least two computing devices interconnected by a network, comprising the steps of:

offering an item for sale through the use of a purchase transaction manager, said purchase transaction manager residing on a first computing device interconnected to the network;

providing credit card account information from the seller of said item to said purchase transaction manager;

a1 receiving at least one acceptable bid on said item from a potential buyer, where each acceptable bid includes credit card account information for the potential buyer;

determining a winning bid on said item by said purchase transaction manager, thereby identifying a buyer for said item; and

transacting a purchase between the buyer and the seller using the credit card account information from the buyer and the seller, including the step of crediting the credit card account of the seller.

7. (Amended) A computer-implemented purchasing system for transacting a purchase between a buyer and a seller, the purchasing system having at least two computing devices interconnected by a network, comprising:

a sellers application receptive of transactional information and residing on a first computing device, where the transactional information includes credit card account information for the seller;

a purchase transaction manager operative to offer said item for sale in response to receiving the transactional information from said sellers application, said purchase transaction manager residing on a second computing device and being interconnected to said sellers application by the network;

A2. said purchase transaction manager receptive of at least one acceptable bid on said item from a potential buyer, where each acceptable bid includes credit card account information for the potential buyer, and operative to determine a winning bid on said item, thereby identifying a buyer for said item; and

said purchase transaction manager being further operative to transact a purchase between the buyer and the seller using the credit card account information from the buyer and the seller, including crediting the credit card account of the seller.
